

MAYOR AND ALDERMEN FAVOR PLEBISCITE ON GAS QUESTION

No Franchise Will be Awarded Until Ratepayers Have Expressed Their Opinions at the Polls

PROBABLE PLEBISCITE WILL BE TAKEN APRIL 24

Majority of Aldermen Believe Citizens Should Decide Whether or Not They Want a Municipal Plant—Negotiations With Companies Now at a Standstill

The attempt of certain members of the council to enact an agreement with the International Heating and Lighting company, without first consulting the people as to their willingness to embark upon a municipal scheme, will be defeated by a majority of the members of the council. Mayor Armstrong and Aldermen Hyndman, Gowen and McKinley, are determined that the gas question shall go to a plebiscite. In conversation with the Capital this morning, these gentlemen explained their views. They explained that in their opinion the people should be given an opportunity to decide whether they desire to utilize their franchise in gas supply, before any proposal to part with that franchise, destined to be worth many millions of dollars in the course of a few years, is entertained.

HEAVY VOTE BEING POLLED IN CHICAGO

Estimated That at Least 300,000 Citizens of Windy City Will Cast Ballots in Today's Mayoralty Contest

Chicago, April 4.—Chas. E. Merriam, republican reform candidate for mayor, was aroused at 5:30 this morning by seven bugles which sounded his polling place by a procession of fifty carts. A drizzling rain when polls opened did not deter the unusually large vote being polled. Workers for Carter H. Harrison, democratic candidate for mayor and Prof. William L. Dyer, republican candidate, were at the polls. The polls were opened and an extraordinary effort is being made to get a large vote. Political forecasters predict that at least 300,000 votes will be cast from a total registration of 1,200,000.

MAYOR APPEALS FOR PEACE AMONG BUILDING TRADES

An appeal from Mayor Armstrong for peace between the building trades and the unions, at the opening of Edmonton's brightest year in building operations, with important announcements from him regarding the city's new city hall, and other civic matters, were among the features of the annual dinner of the Edmonton Builders' Exchange, held last evening at the Yale Hotel, at which over 100 members and their guests gathered.

MERCURY DIPPED LOW LAST NIGHT

Made Record For April Weather By Dropping to 14 Below Zero—Chillest in 23 Years.

The thermometer registered 14 below zero at the coldest point last night. If you don't believe it, call up the weather man on Fourteenth street. It may not have been that cold on Jasper avenue, in the vicinity of the Builders' Exchange banquet, but it certainly dipped low on Fifteenth.

The Capital man grabbed the phone to call up the weather man this morning. He did not expect to be surprised to hear that the weather had been so cold. He thought it was impossible that it could have been below zero. "How cold was it last night?" went the query over the line. "Just 14 below," snapped back the weather man.

SHOULD USE GAS FROM PELICAN WELL

Provincial Engineer Believes If Calgary Can Pipe Gas From Bow, Edmonton Could Bring Gas From Pelican.

"There is no reason, so far as I can see, why Edmonton should not pipe gas from Pelican Rapids well, where gas is going to waste."

This statement, by John Chalmers, provincial engineer, at the annual banquet of the builders' exchange last evening, is probably the first statement of the feasibility of bringing gas down from the Pelican to the city, which has been made in some time by any engineer.

While Mr. Chalmers did not for a moment attempt to speak as one who was thoroughly conversant with the details of the proposed Pelican gas line, he said that he believed it was feasible.

Settlers in Peace River Are Assured Weekly Mail Service

Settlers in the Grande Prairie and on the Peace river are to have a weekly mail service within a short time. The efforts of Jas. K. Cornwall, M. P., for Peace River, together with the co-operation of the Edmonton board of trade, and the urgent demands made by the settlers in the north, have had the desired results.

MANY ENTRIES FOR PLAN BUILDINGS FIRST SPRING SHOW FOR EXHIBITION

Over Ninety Animals Will Be Shown at Edmonton on April 26 and 27—Success Exceeds Expectations.

The success of the entries for the first Edmonton spring show, April 26 and 27, have far exceeded all the expectations of the exhibition directors. A total of ninety or more animals will be on exhibition at this show. This is fifty per cent better than was expected by the directors for the first show, says Secretary Harrison and speaks marvelously for the interest already roused in the live stock industry in this end of the province.

DYNAMO EXPLODED

New Richmond, Wis., April 4.—An explosion of a dynamo wrecked the power plant of the St. Croix Power Co. of Apple River Falls, early today. Fire followed, making the destruction complete. The loss may run up to a million dollars.

OPPOSED TO RECIPROCITY

Grand Forks, N. D., April 4.—On the eve of the opening of President Taft's extra session called to consider the ratification of the proposed U. S. Canadian reciprocity pact, farmers and business men from different sections of North Dakota arrived in this city tonight to take part in the state convention to be held at Grand Forks.

TO BUILD TELEPHONE LINE EDMONTON TO LETHBRIDGE

Government Gangs Commence To-Morrow on Through Line—Will Give Improved Long Distance Service Between Edmonton, Calgary and Lethbridge

Strathcona, April 4.—Work will all probably be commenced tomorrow by the government line men on an improvement which is to prove of the utmost importance to telephone patrons in the Twin Cities, Calgary and Lethbridge, this being an extension of a through line on the long distance system.

Montreal, Toronto, Wisconsin and Montana Will Send Trains Bringing Aggregate of Over 1200 Settlers

COLONY OF HOLLANDERS TO SETTLE NEAR EDMONTON

Alberta the Magnet That Draws the Thousands From All Quarters of Continent—Montreal Sends 1000 West in One Day—Several More Excursions Expected

Four excursions, each of them bringing to the province from 300 to 500 of the best class of settlers, will be headed for Alberta today, from eastern and southern points, under the auspices of the publicity department of the province of Alberta.

These excursions will leave today from Montreal, Toronto, Oshkosh, Wis., and Great Falls, Mont. Each of them will be a special train running through from point of starting to Calgary and Edmonton. The four excursions will bring an aggregate number of settlers of at least 1200.

The four excursions are the biggest undertaking of the kind the provincial publicity bureau has yet accomplished. They are the culmination of weeks and months of hard organization work on the part of the publicity commissioners which are scattered through the States and Eastern Canada, all directed from the office of Chief Publicity Commissioner Hotchkiss.

Alberta publicity man is tireless, and his enthusiasm unquenchable. When he gets a grip on a prospective settler, he does not release his hold until he has that settler, with his effects packed, and labelled Alberta, safely aboard the train with his family and a ticket for some point in this fair province.

It is such work as this that has made it possible for the department to start from four points today, four special trains that will bring over 1200 settlers into the province, all ready to make homes here.

The excursion from Montreal will bring 300 settlers to the Edmonton district, most of whom are French-Canadian farmers and New Englanders. The excursion was organized by L. H. Maillette, commissioner at Montreal. The party will be in charge of Father Ouellette, a colonizing missionary, who has been in Montreal.

The excursion from Toronto will bring from 300 to 400 Ontario farmers and their families and effects. The train will run via Chicago and over the Grand Trunk Pacific to Edmonton, and should reach here Saturday.

The excursion from Oshkosh, Wis., will bring wealthy farmers from that state that will settle on land up around Edmonton. The excursion from Montana will take a big load of Montana farmers into Southern Alberta.

But these four excursions are only the beginning. The publicity bureau expects to accomplish more of the same kind in the next few months. Down in the state of Michigan, an Alberta commissioner is organizing a big excursion to come to the province within a month or two, and it will bring the very cream of Michigan farmers.

CITY FILTRATION PLANT WILL NOT BE READY UNTIL MAY 15

HEALTH OFFICER ADVISES CITIZENS TO BOIL ALL WATER USED FOR DRINKING—FIFTY CASES OF INFECTIOUS DISEASES DURING MARCH

Turbidity of the water supply has been causing the attention of Dr. Whitley, medical officer of health for the past week, and a sample of the water pumped through the mains has been submitted for analysis to Dr. Revell, provincial bacteriologist.

The analysis is not yet complete, but Dr. Revell reports that there are no typhoid bacteria to be found, and the tap water is much freer from bacteria than the water at the intake. This is attributed to the sterilizing plant, now in use.

It will not be until May 15, however, that the filtration plant will be in commission, and the health officer advises in his monthly report, that

MILL CREEK VIADUCTS THROWN OPEN FOR TRAFFIC

Strathcona, April 4.—The high level bridge over Mill creek is finished. The last plank was laid and the last spike driven Saturday on the new \$28,000 steel structure, the occasion being quietly observed during the afternoon by the mayor and a few citizens who were present.

THE GYPSY QUEEN
OF GREAT BRITAIN DEAD.King Edward and W. E. Gladstone Both
Went to See Her.

London, April 4.—Gypsy Lee, the one-time famous fortune teller of the Devil's Dyke, near Brighton, is dead. Mrs. Lee, who was 68, was a member of a Kenish Roman tribe. She could trace her descent in a direct line for 800 years. Gypsies in England looked upon her as their queen.

She began fortune telling at the age of 13 and it is claimed for her that she had the gift of second sight. Her fame as a fortune teller was almost world-wide.

Leonard Lee, her son, says that King Edward, when Prince of Wales, went to see her on several occasions. "W. E. Gladstone also visited her once," said Mr. Lee, "and had tea with her in her caravan. She used to relate to how she had told the Duchess of Fife that she would marry her present husband. After the young Duke of Clarence had seen her it was a sorrow to her that she had had to predict an untimely fate for him."

"As soon as you come enanced to be married your end will come soon," she told him, and unfortunately that turned out to be only too true.

"When Mrs. Dallas York came to her my mother said to her: 'You will marry a rich Duke who will be devoted to you. You will meet your future husband at a railway station.' Miss York laughed merrily at the time, but the first time she met the Duke of Portland was at a station while traveling with her mother and she married him two years afterwards."

"The late Duke of Westminster, Mr. Rothschild, Mrs. Patti and Mrs. Langley consulted her. She predicted the tragic end of William Whitely, who saw her once in London. She used to say, 'I have been told more secrets and heard more of the hidden agonies of people's lives than almost anyone else in the world. My heart has ached many times when I have seen the futures before them.'"

COLLISION IN CHANNEL.

London, April 4.—The Dutch steamer Prinz Frederik Hendrik from Amsterdam for New York by way of the West Indies collided with a small Norwegian steamer, the Nexion of Folkestone, early today. The Nexion sank but her crew and four passengers escaped in small boats and landed at Folkestone. The Dutch vessel put in here with her bows damaged.

KNOCKED INTO MILLRACE

Koevatin, Ont., April 4.—Wm. H. Murphy was caught on the trestle here by a westbound C. P. R. passenger train this morning and knocked into the millrace, dying a few minutes after being fished out. He leaves a wife and two children.

LIVERPOOL MARKETS

Liverpool, April 4.—John Rogers and Co. report here today that there was brisk trade at Birkenhead wharves today and Saturday quotations again outlined, viz.: States steers, 13 1-4 to 13 3-4 cents; Canadian, 13 1-4 to 13 1-2 cents; hams, 17 1-2 cents; wetters, 12 cents per pound sinking.

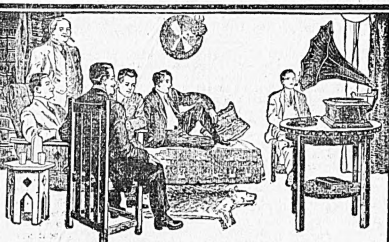

C. P. R. FREIGHT WRECKED.

Cars Jump the Track and Are Badly Damaged, But No One Was Injured.

Port William, Ont., April 4.—Word has been received of a wreck of a C. P. R. freight train at Hemo, Ont., near White River, east of here. Several cars of westbound freight jumped the track and tore down telegraph wires. No one was injured. Owing to lack of information, rumors were afraid last night of a bad smash, but this happily is unfounded.

ST. LOUIS THREATENED
WITH MAMMOTH STRIKE

St. Louis, Mo., April 4.—With 4,000 carpenters and cabinet workers out on strike, there is a possibility of a walk-out by the 40,000 of the building trades in the city. Hejected demands for more wages and shorter hours caused the walkout of 4,000 carpenters and 500 cabinet makers today. The former demanded an increase of from 60 to 65 cents per hour and the latter demanded 40 cents an hour for a forty-eight hour week, instead of 33 cents an hour for a fifty-hour week.

It will be only too soon to select your pyramid pile cure and night ointment if you mail at Kelly & Seaver's.

I Am No Hog; I Don't Want
the Earth!

I am going to slice it up and pass it around, and you have all heard that saying that charity begins at home; so I want everybody in Edmonton to get a slice of this before it is all gone. Of course, there is six foot of earth coming to you all in the end, but that is strictly for dead ones. Now, why not be a real live one and get a slice of this while you live, so that it can't be said that you lived your four score and ten without even owning a foot of earth that you could call your own.

SUMMERLAND PARK

Is the ideal spot for investment at the present time, and just think for a moment if a man will just smoke one less cigar a day it will purchase one of these lots; and, Ladies, if you will just save 15c out of your pin money each day, you can own one of these lots. And our five-acre blocks are the best acreage that is anywhere near Edmonton for market gardens or a poultry yard; and just think of the fortunes that have been made in the poultry business, and the great opportunity that this market affords. There is carload after carload of dressed poultry and eggs shipped into Edmonton every year. Doesn't that seem like a shame, when there is such wonderful opportunities going to waste; and at the same time the property is increasing in value all the time. I am confident that there will not be an acre in Summerland Park that can be bought for less than double the price in two years, and you have nearly that long to pay for it.

A Few Reasons Why You Should buy in
Summerland Park

Edmonton has just begun to grow. There is no doubt in anybody's mind here now but what this city will have 100,000 inhabitants in five years from now, and you know that means a corresponding increase in value in real estate.

The prices are so low now that everybody can get a slice of this while I am passing it around. The location is such an ideal one that it can't be duplicated. It is all high and dry and perfectly clean; no scrub. It is close enough to the G. T. P. shops, so you can work there and live on your own property, and raise poultry and garden truck to sell to your less fortunate neighbors.

My agreement has the sickness and death clause in it, so you need not fear losing in case of sickness or death.

People who bought acreage and lots five years ago farther away from the actual city than this are today selling for five times the purchase price, and buying in Summerland Park and expect to do the same thing with this.

Don't stand back and see the other fellow make money so easy, and then point him out for a lucky man. He is no more lucky than you, he only takes advantage of the opportunity that is offered.

TWO MILLION NATIVE IRISH NOW LIVE IN UNITED STATES

Washington, D. C., April 3.—Two million is the approximate Irish-born population of the United States. There were exactly 1,619,449 Irish-born in the United States in 1900. New York had the most, there being 425,553 in the Empire state; Massachusetts came second with 249,916; Pennsylvania third with 200,909; Illinois fourth with 144,565, and New Jersey fifth with 94,844.

Immigrants from Ireland for the last ten years have averaged 37,000. From June 30, 1899, to January of this year 127,741 Irish immigrants entered the United States. The population of Ireland in 1900 was 4,274,158. The population has steadily decreased for the last sixty years. In 1861 it was 5,798,927.

"INCUBATOR BABY" CASE AGAIN

Mother Secured Custody of Child After Long Legal Battle.

Buffalo, N. Y., April 4.—An echo of the famous "Incubator Baby" case which attracted wide attention several years ago was heard in court here today when the case of the Pinkerton detective agency against Mrs. Stella Barclay for balance alleged to be due on their bill for services rendered in recovering the baby after it had been kidnapped by its mother, Mrs. Barclay is the foster mother of the child. She was given possession of the baby the year of the world's fair at St. Louis, where the baby was on exhibition in an incubator. Mrs. Bleakley, the child's mother, signed away her rights to the child, believing it was another baby on exhibition at the same time. One of the babies died and she was told it was her own. Afterward she became convinced that the living child was her own, and through a court order in Illinois got possession of it. Mrs. Barclay located the baby in Kansas City and is alleged to have gone there and kidnapped the infant, as a result of which she and one of the detectives were indicted. Later the baby's mother recovered possession of her child, which she now has.

GREAT ELECTRIFICATION SCHEME

Will Meet Requirements of 2,500,000 People and Will Cost Several Millions.

Harrisburg, Pa., April 4.—The formal application made to the governor today for charters for about sixty electric companies is said to be the first step toward the fulfillment of one of the greatest electrification schemes ever undertaken in this country. The Lehigh Coal and Navigation Company is back of the project, which aims to electrify eastern Pennsylvania, affecting a territory with a population of 2,500,000 people including Philadelphia. The power will be transmitted over main high tension lines more than 130 miles long, with branches to all industries, towns and villages that will contract to utilize the power.

ON TRIAL FOR MURDER.

Vienna, Ill., April 4.—The case of Thomas H. Sheridan, indicted on a charge of first degree murder, was called for trial today before Judge Thomas H. Jett in the Johnson County circuit court. Sheridan, who is a former State senator, is charged with the murder of Frank Thacker. Last fall Sheridan was State's attorney and editor of a newspaper. Editorial criticism of young Thacker's father as county commissioner is said to have been the cause of the tragedy.

ELECTIONS IN MICHIGAN

Detroit, Mich., April 4.—The spring elections for State, county and city officers take place in Michigan today. The State officers to be chosen are two judges of the supreme court, two regents of the State university, two members of the board of agriculture, one member of the board of education and a state superintendent of public instruction. The Democratic platform endorsed Canadian reciprocity, while the Republican platform failed to mention the subject.

MAJORITY CAMPAIGN IN CHICAGO

Chicago, Ill., April 4.—The bitter majority contest between Carter H. Harrison, Democrat, and Charles E. Merriam, Republican, was brought to a close today with rousing rallies in every city of Chicago. Veterans campaigners predict that the vote tomorrow will be the heaviest ever polled in a municipal election in this city. The outcome today is reported to be slightly in favor of Harrison.

PLAN BIG TRAFFIC LEAGUE

Cincinnati, O., April 4.—Transportation and traffic officials representing nearly all the prominent railroads of the country met here today to discuss the proposed formation of a National League of Transportation and Traffic Clubs. The new organization expects to have a membership of 10,000 railroad men.

WILL VISIT GALLOWAY

London, April 4.—Sir Wilfrid Laurier, General Botha, Sir Joseph Ward and Premier Fisher of Australia, have arranged to visit Galloway on their way through Ireland in connection with the all road route.

It is there a new thing out in New York. You'll be sure to find it at Kelly & Moore's.

DELIVERY OF HATS BY PARCELS POST

Dresden Postal Authorities Have a Special Equipment for Big Head Gear.

Ladies' hats have always been a source of annoyance to the postal authorities, who find that the fragile, yet fragile cardboard boxes, in which the fashionable headgear is packed, shake down badly with other parcels conveyed by post, their size and number making it difficult to stow them away with proper care. Of recent years the Dresden Post Office has been called upon to handle an ever-increasing number of these cardboard boxes. At last the problem has been solved, however, by the Postal Secretary, Herr Krueger, who has constructed a special type of felt hat covered with brown sail-cloth, which occupies itself exclusively with the collection and delivery of hats. Although few German Ministers have been the subject of more general attack than the Postal Secretary, he has at least enlisted on his behalf the sympathies of the fair sex by adopting his department to the caprices of fashion.

The Reasonableness of a Plebiscite on The Gas Question

On the gas proposition, Alderman Hyndman takes the view that the council would not be justified in submitting a bylaw to give a franchise to the International Heating and Lighting Company or any other company without first submitting a plebiscite to determine whether the citizens were favorable to granting a franchise or to municipal ownership of the gas plant.

Besides being manifestly fair, the stand taken by Alderman Hyndman is a plain common sense one which no member of the council could fail to endorse without placing himself on record as being ready to usurp entirely the right of the ratepayers to do as they like with what is their own—the franchise.

If the votes cast showed that the citizens favor the municipal ownership of the gas plant, the council would be notice to the franchise hunters that they are not wanted, and that they can withdraw from the field.

If, on the other hand, the vote showed that the citizens favor giving the franchise away, the city engineer's office and all the rest of the civic departments would be saved the trouble of working out details for a gas plant which would never be built.

In leaving it to a plebiscite, the municipal ownership side of the case would be at some disadvantage, as the franchise hunters would have a direct, personal interest in organizing and getting out the vote favorable to their side of the case, whereas the municipal ownership side would have to depend altogether on those citizens who would walk to the polls and record their votes without solicitation.

On this point, however, the city could afford to take chances, the answer being that if the ratepayers do not think enough of the franchise to get out and protect them, they have a right to lose them.

The reasonableness of submitting the question to a plebiscite is so apparent all around that it seems remarkable that the company which is seeking the franchise and the aldermen and newspapers who are supporting the company have not come forward with the proposal long ago.

Only for one reason could any member of the council oppose submitting the question to a plebiscite—for the reason that he wanted to give the franchise away to the company, and that he was afraid that if the citizens get a chance to decide the question, they will not let him.

An alderman holding this view would insist on putting the franchise bylaw first and taking the chance that a great many ratepayers could be made believe that unless they voted for the bylaw giving the franchise to the International, they might not get gas at all.

Misrepresentation The Unfailing Distress Signal

The Journal has shown the unfailing distress signal on the gas question: It has commenced to misrepresent the stand of those on the other side.

The Journal tries to make it appear that the Capital was claiming that if a company went into the gas business and natural gas was discovered, the company's plant would be a complete loss, whereas, under the same circumstances the city's plant would be kept as an auxiliary and would not be a loss.

The Capital never made any such representation. What the Capital did undertake to point out is that in case the city gave a non-exclusive franchise to the company, a rival company, upon the discovery of natural gas, might, with the city's consent, parallel the International company's mains and thereby render their artificial plant valueless; whereas, in case the city owned the gas plant, it would retain control of the franchise and no company could come in to destroy the city's investment without the city's consent.

What the Capital said and what the Journal tries to make it appear that the Capital said are things altogether different—and the Journal knows it.

The franchise grabbers are on the run. Otherwise, their newspapers would not resort to distorting the case and misrepresenting the argument of those who take the city's side.

The Labor Question Greatest Question of Modern Times

In the coal mining district of the Crow's Nest Pass is now witnessed one of those great industrial struggles which cost the country such enormous sums annually and which, in almost all cases, are futile.

The effects of a strike are so extensive as to be almost appalling in their ramifications.

Close to the scene of the conflict, the effect is most apparent and severe. The miner quits work and his pay and production stop simultaneously. Train crews are laid off. Wholesalers, powder makers, machinery and material concerns lose their business. Local merchants find their stocks dead on their hands. Smelters are forced to close down and mines follow. Steam plows are tied up and thousands of acres of land capable of producing great crops and adding to the wealth of the country are left idle for the year. Following like an endless chain, every industry dependent on every one of these immediately connected industries is affected until the radiating consequences of the strike are felt to the farthest lines of civilization and beyond.

Away out in Africa, somewhere, a negro, or down in South America, an Indian, is affected by the strike because the miner did not require a pair of gum boots this month. The cotton spinner who would have made him that pair of overalls and the cotton grower in the Southern States or Egypt whose market is curtailed by that much less demand, are all affected, and between these, every freight handler along the line is deprived of that much opportunity to earn a living.

To these far removed, the effect of the strike is not so apparent, although it nevertheless exists, and has its bearing upon the whole industrial fabric.

The most discouraging feature is the futility of it all.

When the strike is over and the coal industry has again been resumed, the parties to the struggle are no nearer a settlement than they were when they commenced the fight. They may settle some of the trivial points of wages and hours, or the question, for a time, of the open or the closed shop. But they have not removed the possibility of another fight along the same lines at some later date in the not distant future about the same things, and in which the same noncombatant parties in all parts of the world will bear the consequences.

The labor question is the greatest question of the present age, and to the man who can come forward with the solution, the greatest glory will attain—although the world may make a martyr of him first.

MAYOR AND ALDERMEN FAVOR PLEBISCITE ON GAS QUESTION

(Continued From Page One.)

The installation, but would be placed in a false position were they to be asked to vote on a franchise bylaw, with the possibility of the whole gas question being sidetracked by certain of the aldermen, if the one particular franchise for which they have so long sponsored were turned down.

"The only fair manner of settling this question," said Mayor Armstrong, this morning, "is to leave it in the people's hands to say whether they desire to construct a municipal gas plant. And this plebiscite should come up when the money bylaws are submitted on April 24."

Ald. McInnis was as emphatic in his opinion of the question.

"I think the plebiscite should make provision for three alternatives. The people should be asked whether they want a plant at the present time, or would prefer to await developments in regard to natural gas supply, and if they desire to obtain a supply of artificial gas, they should themselves decide as to the alternatives of a municipal plant or private franchise."

Ald. McInnis declared himself convinced that only a small proportion of the ratepayers would favor the commencement of an artificial gas plant at all at the present juncture, but Ald. Gowen, who is convinced that the demand is supported by the vast majority of citizens, is equally determined that the alternatives should go before the

people. "It is for them to say whether they want a plant or not, and if they want one, whether they want a municipal plant, or to give away a franchise." Ald. Gowen thinks that a plebiscite on the question would be the best means of sounding the public mind.

"I am a municipal ownership man, and I believe the principle of municipal ownership applies in this instance," said Ald. McKinley, "but I am convinced that at the very least, we should have a plebiscite on this question, before any proposal to sign away a valuable franchise is entertained at all."

HEAVY VOTE BEING POLLED IN CHICAGO

yor and has the support of the various good government organizations. Carter H. Harrison, the Democratic nominee, is a veteran politician who has served three terms as mayor of Chicago. He is a son of the Carter Harrison, who was assassinated in 1892 while serving his fourth term as mayor of the city. In his present candidacy Mr. Harrison has met with bitter opposition on the part of an influential faction of the local Democratic party headed by Roger Sullivan, an Illinois representative on the Democratic national committee.

On the other hand, he has received valuable support from William P. Hearst, who is seeking to even up an old score with Roger Sullivan by electing Harrison mayor.

The election of aldermen is attracting unusual attention because the next council probably will have to decide upon several great municipal undertakings. Among these are regulation of the price of gas and telephone service and construction of a passenger subway. The alleged protection of vice and the movement to wipe out the several trolley districts in the city have also figured in the election campaign. Early this morning the indications were that nearly ninety per cent of the registered vote of 235,839 would be cast before the polls closed late this afternoon.

of measles and 1 case from outside the city limits, 2 cases of German measles, neither of which originated in Edmonton, 2 local cases of diphtheria and 1 from the district and a similar number of cases of erysipelas. There was one case of chickenpox, and one of tuberculosis.

"The city fortunately still remains remarkably free from typhoid fever, of which only two cases have been reported," says Dr. Whitehead, "some uneasiness exists in the minds of the public regarding the present condition of our city water supply, yet is not being filtered, the plant not yet having been put in operation."

"Sterilization of the water supply is now carried on continuously, but as this is such more effective when the water is free from turbidity, it would be well for those who wish to be absolutely safe to boil the water used for drinking during the period of time, the ice will be passing out of the river, when the refuse and debris unavoidably collected at the site of operations on the high level bridge during the winter, will necessarily be discharged into the river above our intake pipe. After the ice has gone out, and the river running freely, danger from this source will be reduced to a minimum."

Nineteen cases of infectious disease were admitted to the isolation hospital, and fourteen patients have been discharged. There are still under treatment thirteen patients. Two deaths have occurred at the hospital during the month, one from tuberculosis, the other from scarlet fever. Seven cases of scarlet fever were admitted during the month, and 6 discharged. Seven cases of scarlet fever are still under treatment.

FOUR BIG EXCURSIONS FROM EAST START FOR ALBERTA

(Continued From Page One.)

Colony of Hollanders Coming. Whitinsville, Mass., April 4.—Fifty Hollanders, residents of Whitinsville, left town today with their wives and children, for Alberta, Canada, where they, with another party from Holland, are founding a new colony. To the west of Edmonton. The Whitinsville party will meet their fellow-countrymen at Montreal.

4,000 From Montreal.

Montreal, April 4.—A thousand settlers for various points in Manitoba, Saskatchewan and Alberta will leave by the Grand Trunk today to find new homes along the line of the Grand Trunk Pacific in the far Canadian west. Almost all of these are French-Canadians, about half of whom are French speaking people from the New England States, repatriated in Canada. The French-Canadians from various points in this province. The first special train left Bonaventure station at 9:45 this morning, and the only other party of New England French people for points in Saskatchewan. The party will be in charge of Father Gagne, a Saskatchewan missionary who has made a specialty of getting his compatriots from the New England States to settle in the Canadian West, especially Saskatchewan. For several months last Father Gagne has been working amongst the people of the Eastern States, and has been very successful in getting parties to settle in Saskatchewan, and the success he has met with is shown by the number of people he will take out today. The second train will leave the Bonaventure station at 10:30 this evening, and will be bound for points in Alberta.

Mrs. W. W. Hutton will not receive on Wednesday, nor again this season.

MAYOR APPEALS FOR PEACE AMONG BUILDING TRADES

(Continued From Page One.)

work of Mr. Nesbitt and Secretary Lord of the National Association, and said that the establishment of that organization was greatly due to their efforts. It was years ago, he said, that business men realized the necessity of combination. Yet when the interests of the nation got together for their mutual benefit, a howl was raised all over the country, that the builders were going to tear their pool lenders. The national association of builders handled much more money than any other line of business, but it was only within the past few years that they had established an organization. After the labor unions had for years been lobbying at parliament, did the builders realize the necessity of having some representation in the halls of the national legislature, and it was for this purpose that the national association had been formed.

Mr. Boughton said that the builders, locally as well as nationally, felt themselves to be between the devil and the deep sea. On one hand they were charged by the unions of cutting down wages, and on the other hand by the investors that they were loquacious with the unions to boost the price of construction.

Frank Somerville proposed the toast of the Province, to which Mr. Cornwall and Mr. Chalmers responded.

Talks on North Country.

Mr. Cornwall pointed out that the builders had a great opportunity of impressing people coming into the country, by putting up the best class of building possible. It was by the class of public buildings that many cities were judged.

There was as great a province to the north of Edmonton as to the south, he said, and with greater diversity resources, and without any stretch of the imagination, it was easy to see of what importance this would be to the building trades. The builders should take a keen interest in the development of this portion of the province.

He said that in spite of the fact that men in high positions who should have had faith in the north country, had seemed to have a lack of that faith, the north country was some of the best that he had talked so much of the north country that he felt like a grumbler, but he believed in the country.

The matter of the timber in the north country was of importance to the builders. Enough timber had been destroyed by fire in the north country to build a railroad north and to pay off the debt of the province. There were only 8 men working three months in the year clearing the timber from Edmonton to the Arctic, 2,000 miles. It would be a good thing if the builders took this matter up, and passed a resolution on the conservation of the timber.

John Chalmers read some very interesting statistics regarding the development of all classes of the timber, showing how Alberta was gradually developing. He said that there was no reason why the forests should be made some effort to have the forests conserved. He said that the coal industry in the province would be a big one, and that the clay industry, and the clay resources of the province were not fully appreciated.

Should Pipe Gas from Pelican.

He went on to speak of the natural gas. At Medicine Hat it was being used in abundance. A proposal was under way to pipe natural gas from Bow Island to Calgary. This was not an engineering difficulty, and he did not see that there was any engineering difficulty in the way of piping the gas from Pelican rapids into Edmonton, instead of allowing it to go to waste as it had been doing for years. Mr. Chalmers spoke also of the great possibilities of the development of water power in the province, particularly on the Athabasca and tributary mountain streams.

Talks of Civic Work.

Mayor Armstrong responded to the toast of the city, proposed by ex-mayor Chas. May. He said he agreed to the under to every effort to prevent labor troubles this year. He trusted that a proper adjustment of difficulties would be brought about. No citizen wanted to see the city tied up this summer.

The mayor said that the future of Edmonton as a great city was assured. He went on to speak of civic undertakings, and mentioned the \$3 by-ways passed the other evening by the council. He said the citizens had been extremely liberal in the past in granting money for undertakings and he hoped they would be so in connection with these very necessary by-laws. The city's finances, he said, were never in better condition.

The mayor spoke of the proposal for a union stock yard, and said the council were considering a by-law for the purchase of large site for this purpose north east of the city.

He spoke also of the improvements to the exhibition grounds. He made reference to the various grants and concessions to the new G.T.P. hotel, and said that he hoped the public would be very liberal in the past in granting money for undertakings and he hoped they would be so in connection with these very necessary by-laws. The city's finances, he said, were never in better condition.

He spoke also of the improvements to the exhibition grounds. He made reference to the various grants and concessions to the new G.T.P. hotel, and said that he hoped the public would be very liberal in the past in granting money for undertakings and he hoped they would be so in connection with these very necessary by-laws. The city's finances, he said, were never in better condition.

The mayor spoke of the proposal for a union stock yard, and said the council were considering a by-law for the purchase of large site for this purpose north east of the city.

MILL CREEK VIADUCT IS THROWN OPEN FOR TRAFFIC

(Continued From Page One.)

Mill creek. For years, the steep declivities of the east end valley have stretched as a barrier across the progress of Strathcona, and the route of the costly but scenic routes to the elevated roadway should be of immediate benefit to this city.

One of the good results to come from the completion of the Mill viaduct will be the opening for suburban settlement on a more advantageous scale the extensive and desirable tracts both within and outside the city limits across the valley. It is understood that Whyte avenue, which is projected some distance east of the city line and with the extension of the street railway system in that direction, which is confidently expected in the not distant future, the east end suburbs will thereby be amongst the choicest in the Twin Cities.

Amongst other improvements that will follow the completion of the new viaduct will probably be the early extension of the sidewalk to connect it with the present terminal on Whyte avenue east.

Another First Settler Gone.

Mr. F. Sacke, one of Strathcona's first residents, passed away at 5 o'clock this morning, after an illness extending over several months. During the past winter, Mr. Sacke was confined entirely to his home on Saskatchewan avenue, and the end was not unexpected. Mr. Sacke was 61 years of age, and leaves a widow and family of grown children to mourn his loss. The deceased was one of the real pioneers of the city, having located here many years ago. His property holding in Strathcona was very large.

Finish Intake Next Fall.

Of the four hundred and fifty feet of pipe to install for the city's new intake at the pumping station, only ninety feet is put down this spring. Owing to the danger of a break-up in the river, the work was practically abandoned last week, and the remaining lengths of tubing will not be connected through the tunnel until next fall.

FIRE AT CLINTON, N. Y.

Clinton, N. Y., April 4.—Ten buildings including the office and lumber storage house of J. W. Henry and Co., and D. E. Knapp's concrete works were destroyed by fire early today. The loss is estimated at \$100,000.

BLUE RIBBON MEET.

Detroit, Mich., April 4.—The four state teams will be in the annual blue ribbon trotting meeting of the Detroit Driving Club this summer closed today. According to announcement of the club officials the outlook for a successful meeting was never brighter. One of the big features will be a race at the meeting, and with the late closing purse total for the five days will exceed \$50,000.

Many men who stand around smoking different cigars and wisely knocking everything of a superior nature will be found to be feeding their families on chuck steak.

WILL MEET TO-NIGHT.

A meeting of the Edmonton Association Football League will be held tonight at the Y. M. C. A. at 8.30 o'clock. As business of importance is to be transacted, a large attendance is respectfully requested.

CRACK HORSES AT JAMESTOWN

Norfolk, Va., April 4.—With over 500 horses already quartered at the track and others en route the spring meeting of the Jamestown Jockey Club opened today, marking the beginning of the racing season in the North. The meeting will run for nineteen days. The officials in charge are A. B. Dale, starter; Ed. C. Cole and F. Gerhardt, judges; J. Hoesford Smith, handicapper, and Herman Conkling, patrol judge.

LEAGUE CLAIM ALLOWED.

Auburn, N. Y., April 4.—The national board of arbitration of the National Association of Professional Baseball Players last night decided to allow the claim of the Western Canada Baseball League for \$150 against Iroquois, which claim was paid, while the application of H. P. McNeil, of Rochester, N. Y., to be released from Winnipeg reserve list, was disallowed.

POWER BOAT RACES.

St. Augustine, Fla., April 4.—Under the auspices of the St. Augustine Power Boat Club a race meeting for speed boats opened today on the Matanzas course near this city. Many of the fleetest boats took part in the recent meet at Palm Beach are entered for the various contests, which will continue over tomorrow and Thursday.

CHOW-CHOW

A report has reached Edmonton from the coast to the effect that Alex. Chabot, of the Windsor Hotel ball team, has been cured of flirting. It is said that on the train from Spokane to Seattle, he started a flirtation with a lady who turned out to be selling an encyclopedia at \$300.00 a set.

From two to six balls are lost every day in the creek outside of left field at the Nap camp. A ball in the creek goes to the pick-aninny who gets it out. Fifteen dozen balls have been used so far.

If, as the Spokane doctor says, the Chinks are the coming athletes, let's drop the "white hopes" awhile and look for a yellow one. A Chinaman fighting a negro wouldn't sound so bad, either.

George Longenecker will have his first try as an umpire in the Northwestern League in Spokane when Portland opens the season there. Let's hope he will not find it as strenuous as he did in some of the series between Calgary and Edmonton.

Matt Stanley has several men who are in excellent condition as to holding but whom the manager does not think will be able to hit over 400 and he is negotiating for trades with major leaguers. —Signed, Savage Press Bureau.

Talk about hit and run signs! Willie Keeler has one that was sure a peach. When Willie was with the New York team he took advantage of the two initials "Y" and "Y." When Willie wanted to hand out the sign he would rub one hand across the "Y," meaning "Yes," and when he wanted to call it off, he would rub his hand across the "N," meaning "No."

BASEBALL GOSSIP

The Cubs haven't started any forest fires by their playing so far this spring.

It is said the Brooklyn club has sold 22 players to minor league clubs for \$28,300.

WILL NOW FORM POLO LEAGUE

Four Clubs to Be Organized in Edmonton—Southern Teams to Be Invited to Come Here During Exhibition for Tournament in This City

Edmonton is to have a four-club polo league this year.

This was decided upon at the meeting of the Edmonton Polo Club, which was reorganized at an assembly at the King Edward Hotel. The proposition for a big tournament to be held here during the annual exhibition was received enthusiastically and the secretary was instructed to communicate with officials in Calgary, High River, Buffalo Lake, Cochrane, Fish Creek and Pincher Creek and ask if they would consent to send teams to this city.

It is possible that an Edmonton team will make a trip to Winnipeg the coming summer, the Winnipeg Polo Club having offered to pay the expenses of a team from this city for a series of matches.

The officers of the club are: President, Major F. C. Jamieson. Secretary, Treasurer, E. L. Ferris. Executive committee, Dr. A. E. Clendenen, H. N. Lane and S. S. Franklin.

Southgate Kraft, new Spokane pitcher from Hamilton, Mo., has silver eye hair—bound to make a hit with the harem skirt section. He insists that he is but 29 years old, despite his Van Winkle barber's board bill.

Represented here for the first time are many of the great metropolitan racing stables including those of August Belmont, R. T. Wilson, Jr., Capt. E. B. Cassatt, Thomas P. Ryan, Percy A. Rose, and P. S. P. Randolph.

EDMONTON WANTS PLACE IN LACROSSE LEAGUE

Edmonton is to make a strong bid for place in the Provincial Lacrosse League. Joe Clark, of the executive here, was in communication this morning over the long distance with Joe Moir, of Calgary, and the response was so enthusiastic that he has called a meeting of the club for 5.30 o'clock this afternoon in the parlors of the King Edward Hotel.

Lacrosse doings in Edmonton are humming and the feeling in favor of the national game is most encouraging.

WITH THE BOXERS.

Jimmy Gardner has accepted terms to box Harry Lewis in London, and sails for England this week.

Hubo Kelly will not be able to fight for several weeks, being confined to his bed with a bad attack of the grippe.

Packey McFarland will have to make a side wasser of \$10,000 if he wants to get Champion Ad. Wolgast.

Jimmy Gladby broke his right hand in a bout in London recently, and will be out of the game for several months.

NO BUSINESS, BETTER.

Johnny Evers, second baseman for the Chicago Nationals, has had his Chicago home store, and has decided to devote all his time in the future to adding his team to win championships.

"No player can put up the article of ball that he is capable of when he has business worries on his mind," said Evers yesterday in explaining the reason for his unexpected move.

REAL ESTATE BULLETIN

The principal enquiry today in the business sections has been for Fraser Avenue, with some Namayo and Jasper Avenue.

In residential property, the Groat Estate and H. B. Reserve in West End and North of Tracks has been in good request, with considerable Delton enquiry in the East End.

In houses, there is practically no change to note, the demand in the West End being fairly constant.

We look for considerable house movement during this month and would advise intending purchasers to make their selections while our lists are full.

IMPROVEMENT OF WEST END PARK IS PLANNED.

Commissioners Authorize Expenditure of \$3,000 on Grounds This Year.—To Establish a Nursery.

Expenditure of the sum of \$3,000 for purpose of laying out the west end park was authorized by the commissioners yesterday afternoon. A summer house will be built on the property at which a caretaker will be in residence, to protect the park against vandals, and to work upon the improvement of the site. Some 20,000 trees will be planted in the West End Park during the present season, a nursery being formed from which trees will be taken for the beautifying of boulevards. Six of the hundred acres of the park will constitute the nursery. There will be a small lake in the centre of the property and driveways will be constructed.
